

EXECUTIVE BIOS

Lisa Spector – President and Chief Executive Officer

Lisa Spector is the Founder, President and CEO of Staffing Plus, Inc. Prior to starting Staffing Plus, Lisa started and developed the Medical Division for Scientific Staffing, Inc.

This division specialized in the permanent and temporary placement of Physical, Speech, and Occupational Therapists and later became known as Therapy USA.

In 1997, Lisa decided to branch out on her own and Staffing Plus was born. Initially, sole responsibility for all sales and recruitment fell to Lisa as she was building the company based on her values of always “Delivering the Plus.”

The company quickly grew and now specializes in Behavioral Health, Healthcare, and Education. Lisa is an active and involved leader who provides hands on day-to-day management. She continues to stay personally involved with many clients and works with other CEOs so she never loses touch with the issues and challenges facing her clients. She combines both a strategic vision and drive that has allowed Staffing Plus to develop a reputation for quality, integrity, innovation and the willingness to always go the extra mile for the clients they serve.

Lisa has received numerous awards including being named the The Stevie Awards finalist for Women Entrepreneurs as “Employer of the Year” and was recognized as “Best Entrepreneur – Services Business.” She was also named one of Pennsylvania’s “Best 50 Women in Business” and was the recipient of Elwyn’s 2005 Ruth Sliwinski Crystal Award.
